**CIVIL AVIATION AUTHORITY AERIAL WORK
REGULATIONS, 2026**

CIVIL AVIATION AERIAL WORK REGULATIONS, 2026

ARRANGEMENT OF REGULATIONS

CHAPTER I PRELIMINARY PROVISIONS

1. Title and Commencement
2. Purpose
3. Authority and Application
4. Interpretation

CHAPTER II AGRICULTURAL AIR OPERATIONS

5. General Requirements
6. Certificate Required
7. Application of Certificate
8. Amendment of Certificate
9. Certification Requirements
10. Duration of Certificate
11. Drug Trafficking

CHAPTER III OPERATING RULES AND RELATED REQUIREMENTS

12. General Operating Rules
13. Carrying and Display of Certificates
14. Limitations on Private Agricultural Aircraft Operator
15. Manner of Dispensing.
16. Economic Poison Dispensing
17. Personnel
18. Fastening of Safety Belts and Harnesses
19. Operations in Controlled Airspace Designated for An Airport
20. Non-Observance of Airport Traffic Pattern
21. Operation Over Areas Other Than Congested Areas
22. Operation Over Congested Areas: General
23. Operation Over Congested Areas: Pilots and Aircraft
24. Business Name: Commercial Agricultural Aircraft Operator
25. Access for Inspection
26. Records and Reports: Commercial Agricultural Aircraft Operator
27. Change of Address
28. Termination of Operations

CHAPTER IV ROTORCRAFT EXTERNAL LOAD OPERATIONS

29. Application of Certification Rules

30. Rotorcraft External Load Operator Certificate
31. Validity and Renewal of a Rotorcraft External Load Operator Certificate
32. Application for Certificate Issue or Renewal
33. Issue of a Rotorcraft External-Load Operator Certificate
34. Rotorcraft
35. Personnel
36. Knowledge And Skill
37. Amendment of Certificate
38. Availability, Display and Surrender of Certificate

CHAPTER V

OPERATING RULES AND RELATED REQUIREMENTS

39. Emergency Operations
40. Operating Rules
41. Carriage of Persons
42. Crew Member Training, Currency and Testing Requirements
43. Access for Inspection

CHAPTER VI

AIRWORTHINESS REQUIREMENTS

44. Flight Characteristics Requirements
45. Structures and Design
46. Operating Limitations
47. Rotorcraft-Load Combination Operating Manual
48. Markings and Placards

CHAPTER VII

GLIDER TOWING, PICKING UP AND RAISING OF PERSONS AND ARTICLES

49. Towing of Gliders
50. Glider Towing: Experience and Training Requirements
51. Towing Picking Up and Raising of Persons, Animals and Articles
52. Towing Operating Rules
53. Dropping of Articles and Animals
54. Dropping of Persons

CHAPTER VIII

BANNER TOWING

55. Authorization Required
56. Aircraft Requirements
57. Experience And Training Requirements
58. Operating Rules

CHAPTER IX
TELEVISION, MOVIE OPERATIONS AND AERIAL PHOTOGRAPHY AND SURVEY

- 59. Authorization Required
- 60. Aircraft Requirements
- 61. Experience And Training Requirements
- 62. Special Authorization Requirements
- 63. Contents of a Flight Operations Manual
- 64. Operating Rules
- 65. Exhibition Flights

CHAPTER X
TRAFFIC AND SPORTS REPORTING, FISH SPOTTING GAME VIEWING AND SIGHTSEEING

- 66. Sightseeing
- 67. Traffic Reporting
- 68. Game Viewing or Tracking Operation
- 69. Competitive Motor Vehicle Operations
- 70. Fish Spotting

CHAPTER XI
MISCELLANEOUS PROVISIONS

- 71. Application for Exemptions
- 72. Exemption
- 73. Possession of a Licence, Certificate, Approval, Authorization or Exemption
- 74. Drug and Alcohol Testing and Reporting
- 75. Inspection of Licence, Certificate, Approval, Authorization or Exemption
- 76. Change of Name
- 77. Change of Address
- 78. Replacement of Licence, Certificate, Approval, Authorization or Exemption
- 79. Suspension and Revocation of Licence, Certificate, Approval, Authorization or Exemption
- 80. Use and Retention of Licence, Certificate, Approval, Authorization and Records
- 81. Reports of Violation
- 82. Enforcement of Directives
- 83. Aeronautical User Fees
- 84. Application of Regulations to Government and Visiting Forces
- 85. Extra-Territorial Application of Regulations

CHAPTER XII
OFFENCES AND PENALTIES

- 86. Contravention of Regulations
- 87. Penalties

88. Revocation and Savings

SCHEDULES

CIVIL AVIATION AERIAL WORK REGULATIONS, 2026

In exercise of the powers conferred upon me under the provisions of section 99 of the South Sudan Civil Aviation Act, 2012, (as amended) of the Ministry of Transport, I do hereby issue the following Regulations:

CHAPTER I PRELIMINARY PROVISIONS

1. Title and Commencement

These Regulations shall be cited as “**Aerial Work Regulations 2026**” and shall come into force on the date of its signature by the Minister.

2. Purpose

The purpose of these regulations is to provide a regulatory framework for South Sudan Civil Aviation Authority to protect and guide the Aerial Work for an aircraft operation in which an aircraft is used for specialized services.

3. Authority and Application

This regulation is drafted in accordance with the provisions of section 99 of the South Sudan Civil Aviation Act 2012, as amended which grants the Civil Aviation Authority Exclusive Legislative and Executive Powers over it.

4. Interpretation

In these Regulations unless the context otherwise requires:

- | | |
|-----------------------------|---|
| “ Acceptable ” | means the Authority has reviewed the method, procedure or policy and has neither objected to nor approved its proposed use or implementation; |
| “ Acrobatic Flight ” | means manoeuvres intentionally performed by an aircraft involving an abrupt change in its attitude, an abnormal attitude or an abnormal variation in speed; |
| “ Aerial Work ” | means an aircraft operation in which an aircraft is used for specialized services including, but not limited to, agriculture, construction, photography, surveying, observation and patrol, search and rescue and aerial advertisement; |
| “ Aerodrome ” | means a defined area on land or water including any buildings, installations and equipment intended to be used either wholly or in part for the arrival, departure and surface movement of aircraft; |

“Agreement Summary” means, when an aircraft is operating under an article 83 bis agreement between the State of Registry and another State, the document transmitted with the Article 83 bis Agreement registered with the ICAO Council that identifies succinctly and clearly which functions and duties are transferred by the State of Registry to that other State.

“Agricultural Air Operator Certificate” means a certificate authorizing an agricultural operator to carry out specified agricultural operations;

“Agricultural Aircraft Operation” means the operation of an aircraft for the purpose of:

- (a) dispensing any economic poison; or
- (b) dispensing any other substance intended for plant nourishment, soil treatment, propagation of plant life or pest control; or
- (c) engaging in dispensing activities directly affecting agriculture, horticulture or forest preservation, but not including the dispensing of live insects.

“Aircraft” means a machine that can derive support in the atmosphere from the reactions of the air other than the reactions of the air against the earth’s surface;

“Air Traffic Control (ATC)” means a service that promotes the safe, orderly and expeditious flow of air traffic at aerodromes and during the approach, departure and en route environments;

“Appliance” means any instruments, equipment, apparatus, parts, appurtenances, or accessories, of whatever description, that are used, or are capable of being or intended to be used, in the navigation, operation, or control of aircraft in flight (including parachutes, communication equipment, and any other mechanism or mechanisms installed in or attached to aircraft during flight) and that are not part or parts of aircraft, aircraft engines, or propellers;

“Approved by the Authority” means approved by the Authority directly or in accordance with a procedure approved by the Authority;

“Article” means any item, including but not limited to, an aircraft, airframe, aircraft engine, propeller, appliance,

accessory, assembly, subassembly, system, subsystem, component, unit, product or part;

“Air Traffic Control Facility” means a building holding the persons and equipment responsible for providing ATC services for example, airport tower, approach control, area control;

“Authority” means the Civil Aviation Authority established under section 3 of the Civil Aviation Authority Act;

“Banner” means an advertising medium supported by a temporary framework attached externally to the aeroplane and towed behind the aeroplane;

“Commercial Agricultural Air Operator Certificate” means a certificate authorizing a person to carry out specified agricultural operations for compensation and hire;

“Critical Engine” means the engine whose failure would most adversely affect the performance or handling qualities of an aircraft;

“Drug Trafficking” means carriage by aircraft of narcotic drugs, marijuana and depressant or stimulant drugs or substances;

“Economic Poison” means any substance or mixture of substances intended for preventing, destroying, repelling or mitigating any insects, rodents, nematodes, fungi, weeds and other forms of plant or animal life or viruses, except viruses on or in living human beings or other animals, which South Sudan shall declare to be a pest and use as a plant regulator, defoliant or desiccant;

“Exhibition of Flying” means any flying activity deliberately performed for the purpose of providing an exhibition or entertainment at an advertisement open to the public;

“Facility” means a physical plant, including land, buildings, and equipment, that provides a means for the conduct of the activities approved by the Authority for an approved or certificated entity;

“Flight Crew Member” means a licensed crew member charged with duties essential to the operation of an aircraft during flight duty period;

“Flight Time” means the period of time that an aircraft moves under its own power for the purpose of flight, ending when the aircraft comes to rest after it is parked, with engine(s) shut down

- “Flight Training”** means training, other than ground training, received from an authorized instructor in flight in an aircraft;
- “Glider”** means a non-power-driven heavier-than-air aircraft, deriving its lift in flight chiefly from aerodynamic reactions on surfaces, that remain fixed under given conditions of flight;
- “Helicopter”** means a heavier-than-air aircraft supported in flight chiefly by the reactions of the air on one or more power-driven rotors on substantially vertical axis;
- “Night”** means the hours between the end of evening civil twilight and the beginning of morning civil twilight or the time between fifteen minutes after sunset and fifteen minutes before sunrise, sunrise and sunset being determined at surface level, and includes any time between sunset and sunrise when an unlighted aircraft or other unlighted prominent object cannot clearly be seen at a distance of 4,572 meters;
- “Operator”** means a person, organisation, or enterprise engaged in or offering to engage in an aircraft operation and who causes or authorizes the operation of an aircraft, such as the owner, lessee, or bailee of an aircraft, and/or the PIC;
- “Person”** means an individual, firm, partnership, corporation, company, association, joint stock association, or body politic, including any trustee, receiver, assignee, or other similar representative of these entities;
- “Pilot-In-Command (PIC)”** means the pilot responsible for the operation and safety of the aircraft during flight time;
- “Power Plant”** means an engine that is used or intended to be used for propelling aircraft including turbo superchargers, appurtenances and accessories necessary for its functioning, but does not include propellers;
- “Prescribed”** means the Authority has issued written policy or methodology which imposes either a mandatory requirement, if the written policy or methodology states “shall,” or a discretionary requirement if the written policy or methodology states “may”;
- “Private Agricultural Air Operator Certificate”** means a certificate authorizing a person to carry out specified private agricultural operations;

- “Propeller”** means a device for propelling an aircraft that has blades on a powerplant driven shaft and that, when rotated, produces by its action on the air, a thrust approximately perpendicular to its plane of rotation and includes control components normally supplied by its manufacturer, but does not include main and auxiliary rotors or rotating airfoils of powerplants;
- “Rotor Craft”** means a power-driven heavier-than-air aircraft supported in flight by the reactions of the air on one or more rotors;
- “Rotorcraft Load Combinations”** means configurations for external loads carried by rotorcraft:
- (a) class A external-load fixed to the rotorcraft, cannot be jettisoned and does not extend below the landing gear, used to transport cargo;
 - (b) class B external-load suspended from the rotorcraft, which can be jettisoned and is transported free of land or water during rotorcraft operations;
 - (c) class C external-load suspended from the rotorcraft, which can be jettisoned, but remains in contact with land or water during rotorcraft operation;
 - (d) class D external-load suspended from the rotorcraft for the carriage of persons;
- “Restricted Certificate of Airworthiness”** means a certificate issued to an aircraft which does not qualify for an issue of a certificate of airworthiness;
- “Standard”** means an object, artifact, tool, test equipment, system or experiment that store, embodies or otherwise provides a physical quantity, which serves as the basis for measurement of the quantity and includes a document describing the operations and processes that shall be performed in order for a particular end to be achieved;
- “State of Design”** means the State having jurisdiction over the organisation responsible for the type design;
- “Substance”** means alcohol, sedatives, hypnotics, anxiolytics, hallucinogens, opioids, cannabis, inhalants, central nervous system stimulants such as cocaine, amphetamines and similarly acting sympathomimetics,

phencyclidine or similarly acting arylcyclohexylamines and other psychoactive drugs and chemicals; and

“Training Programme” means a programme that consists of courses, courseware, facilities, flight training equipment and personnel necessary to accomplish a specific training objective; and includes a core curriculum and a specialty curriculum.

CHAPTER II AGRICULTURAL AIR OPERATIONS

5. General Requirements

- (1) These requirements shall apply to:
 - (a) agricultural aircraft operations within South Sudan; and
 - (b) the issue of commercial and private agricultural aircraft operator certificates for those operations.
- (2) In a public emergency, a person conducting agricultural aircraft operations may to the extent necessary, deviate from these regulations in order to perform relief and welfare activities approved by the Authority.
- (3) A person who deviates from these regulations shall, within 14 days after the deviation, send to the Authority a complete report of the aircraft operation involved, including a description of the operation and the reasons for deviation.

6. Certificate Required

- (1) Except as provided in sub-section (2) and (3), a person shall not conduct agricultural air operations without or in violation of, an agricultural air operator certificate issued under these Regulations
- (2) An operator may conduct agricultural aircraft operations using a rotorcraft with external dispensing equipment in place without a rotorcraft external-load operator certificate referred to in Part 3 of these regulations.
- (3) A holder of a rotorcraft external-load operator certificate conducting agricultural aircraft operations, involving only the dispensing of water on forest fires by rotorcraft external-load means, need not comply with this subpart a government entity conducting agricultural aircraft operations with public aircraft need not comply with this Regulation.

7. Application for Certificate

An applicant for an agricultural air operator certificate shall complete and submit an application form prescribed by the Authority.

8. Amendment of Certificate

- (1) An agricultural air operator certificate (AAOC) may be amended:
 - (a) on the Authority's own initiative under applicable laws and regulations; and
 - (b) upon application by the holder of that certificate.
- (2) A holder of the certificate shall submit an application to amend an AAOC by completing a form prescribed by the Authority.
- (3) An applicant for an amendment under this regulation shall file the application to amend a certificate at least 30 days before the date that it proposes the amendment shall become effective, unless the Authority approves a shorter filing period.
- (4) The Authority shall grant a request to amend a certificate where it determines that it is in interest of flight safety or in public interest.

9. Certification Requirements

- (1) Except as provided by sub-regulation (2):
 - (a) the Authority may issue a private agricultural air operator certificate (AAOC) if an applicant meets the requirements of this Part for that certificate;
 - (b) the Authority may issue a commercial AAOC to an applicant if he or she meets the requirements of this Part for that certificate; and
 - (c) An applicant for an AAOC with a prohibition against the dispensing of economic poisons is not required to demonstrate knowledge specific to economic poisons.
- (2) Pilots:
 - (a) A private AAOC applicant shall:
 - (i) engage the services of pilot who holds a current private pilot licence (PPL), commercial pilot licence (CPL) or airline transport pilot licence (ATPL);
 - (ii) appropriately rated on the aircraft to be used; and
 - (iii) not conduct operations for hire or reward.
 - (b) A commercial AAOC applicant shall:
 - (i) have available the services of at least one pilot who holds a current CPL or ATPL issued by the Authority and who is properly rated for the aircraft to be used; and
 - (ii) possess an air service licence issued under the Civil Aviation (Licensing of Air Services) Regulations, as amended.
- (3) Aircraft:

The applicant for a private or commercial agricultural air operator certificate shall have one or more certified and airworthy aircraft, equipped for agricultural operation.

- (4) Knowledge and skill tests:
- (a) The applicant shall show, or shall have the person who is designated as the chief supervisor of agricultural aircraft operations for him or her show, that the applicant meets the following knowledge and skill of the following agricultural aircraft operations:
 - (i) steps to be taken before starting operations, including a survey of the area to be worked;
 - (ii) safe handling of economic poisons and the proper disposal of used containers for those poisons;
 - (iii) the general effects of economic poisons and agricultural chemicals on plants, animals and persons and the precautions to be observed in using poisons and chemicals;
 - (iv) primary symptoms of poisoning of persons from economic poisons, the appropriate emergency measures to be taken and the location of poison control centres;
 - (v) performance capabilities and operating limitations of the aircraft to be used; and
 - (vi) safe flight and application procedures.
 - (b) skill in the following manoeuvres, demonstrated at the aircraft's maximum certified take-off mass or the maximum mass established for the special purpose load, whichever is greater:
 - (i) short-field and soft-field takeoffs (aeroplanes and gyroplanes only);
 - (ii) approaches to the working area;
 - (iii) flare-outs;
 - (iv) swath runs;
 - (v) pullups and turnarounds;
 - (vi) rapid deceleration (quick stops) in helicopters only.

10. Duration of Certificate

- (1) An agricultural aircraft operator certificate (AAOC) shall be valid for 12 months from the date of issue or renewal, unless:
- (a) a shorter period is specified by the Authority;
 - (b) the Authority amends, suspends, revokes or otherwise terminates the certificate;
 - (c) the AAOC holder surrenders it to the Authority; or
 - (d) the AAOC holder suspends operations for more than (180) one hundred eighty continuous days.

- (2) The holder of an AAOC that is suspended or revoked shall return it to the Authority
- (3) An application for renewal of an AAOC shall be made on a form prescribed by the Authority at least (60) sixty days before the certificate expires
- (4) Where the request for renewal is made after the expiry of an AAOC, the applicant shall make an initial application

11. Drug Trafficking .

Where the holder of a certificate issued under these Regulations permits any aircraft owned or leased by that holder to be engaged in any operation that the certificate holder knows to be in violation of any laws of South Sudan pertaining to drug trafficking, the Authority shall suspend or revoke the certificate

CHAPTER III OPERATING RULES AND RELATED REQUIREMENTS

12. General Operating Rules

- (1) Except as provided in sub-regulation (3), this sub- part prescribes rules that apply to persons and aircraft used in agricultural aircraft operations conducted under these Regulations
- (2) A holder of an agricultural air operator certificate may deviate from the provisions of the Civil Aviation (Air Operator Certification and Administration) and the Civil Aviation (Rules of the Air and Air Traffic Control) Regulations without obtaining an exemption when conducting aerial work operations related to agriculture, horticulture, or forest preservation in accordance with the operating provisions of this sub-part.
- (3) The operating rules of this subpart apply to rotorcraft external-load operator certificate holders conducting agricultural aircraft operations involving only the dispensing of water on forest fires by rotorcraft external-load means.

13. Carrying and Display of Certificate

- (1) A person shall not operate an agricultural aircraft unless each of the following documents are carried on that aircraft:
 - (a) a copy of agricultural aircraft operator certificate;
 - (b) Certificate of registration; and
 - (c) Certificate of airworthiness.
- (2) A holder of an AAOC shall display the certificate at the home base of operations, to the public at all times and shall present it for inspection on the request of the Authority or any person authorised by the Authority.

- (3) Where the documents specified in sub-regulation (1) are not carried in the aircraft, they shall be kept available for inspection at the base from which the dispensing operation is conducted

14. Limitations on Private Agricultural Aircraft Operator

A holder of a private agricultural air operator certificate shall not conduct an agricultural air operation:

- (a) for compensation or hire;
- (b) over a congested area; or
- (c) over any property unless the person is the owner or lessee of the property, or has ownership or other property interest in the crop located on that property.

15. Manner of Dispensing

A person shall not dispense or cause to be dispensed any material or substance in a manner that creates a hazard to persons or property on the surface.

16. Economic Poison Dispensing

- (1) Except as provided in sub-regulation (2), a person shall not dispense or cause to be dispensed from an aircraft that is registered in South Sudan, any economic poison under the Pest Control Act:
 - (a) for a use other than that for which it is registered;
 - (b) contrary to any safety instructions or use limitations on its label; or
 - (c) in violation of any laws of South Sudan.
- (2) This regulation does not apply to any person dispensing economic poisons for experimental purposes under:
 - (a) the supervision of a South Sudan agency authorised by law to conduct research in the field of economic poisons; or
 - (b) the relevant Authority.

17. Personnel

- (1) A holder of an agricultural air operator certificate shall ensure that each person used in the holder's agricultural aircraft operation is informed of his or her duties and responsibilities for the operation.
- (2) A person shall not supervise an agricultural air operation unless the person has met the knowledge and skill requirements specified in these Regulations.
- (3) A person shall not act as a pilot in command of an aircraft operated under these Regulations unless that pilot:
 - (a) holds a pilot licence and rating as specified in regulation 8 as appropriate to the type of operation conducted; and
 - (b) has demonstrated to the holder of the agricultural air operator certificate conducting the operation or to a supervisor designated by that certificate

holder, that they possess the knowledge and skill requirements of these Regulations.

18. Fastening of Safety Belts and Harnesses

A person shall not operate an aircraft under these Regulations without a safety belt and shoulder harness properly secured about that person, except that the shoulder harness need not be fastened if that person would be unable to perform required duties with the shoulder harness fastened.

19. Operations in Controlled Airspace Designated for an Airport

- (1) Except for flights to and from a dispensing area, a person shall not operate an aircraft within the lateral boundaries of the surface area of class D airspace designated for an aerodrome unless authorization for that operation has been obtained from the air traffic control (ATC) facility having jurisdiction over that area.
- (2) A person shall not operate an aircraft in weather conditions below visual flight rules minima within the lateral boundaries of a Class E airspace area that extends upward from the surface unless authorization for that operation has been obtained from the ATC facility having jurisdiction over that area.
- (3) The holder of a rotorcraft external-load operator certificate shall submit to the Authority a current and valid standard or restricted certificate of airworthiness, in accordance with Regulation 15, for each aircraft to be added to the certificate.
- (4) A certificate holder may operate an aircraft under special VFR weather minimum conditions.

20. No-Observance of Airport Traffic Pattern

- (1) A pilot in command (PIC) of an aircraft may deviate from an airport traffic pattern when authorized by the control tower concerned.
- (2) At an airport without a functioning control tower, the PIC may deviate from the traffic pattern where:
 - (a) prior coordination is made with the airport management concerned;
 - (b) deviations are limited to the agricultural aircraft operation;
 - (c) except in an emergency, landing and takeoffs are not made on ramps, taxiways or other areas of the airport not intended for such use; and
 - (d) the aircraft at all times remains clear of and gives way to, aircraft conforming to the traffic pattern for the airport.

21. Operation Over Areas Other Than Congested Areas

Notwithstanding the requirements of the current Civil Aviation (Rules of the Air) and Civil Aviation (Air Traffic Control) Regulations, the holder of a certificate may conduct dispensing operations, including approaches, departures and turnarounds reasonably necessary for the operation, below 500 feet above the surface and closer than 500 feet to

persons, vessels, vehicles and structures, if the operations are conducted without creating a hazard to persons or property on the surface.

22. Operation Over Congested Areas: General

- (1) A person shall not operate an aircraft over a congested area at altitudes required for the proper accomplishment of the agricultural aircraft operation where that operation is not conducted:
 - (a) with the maximum safety to persons and property on the surface, consistent with the operation; and
 - (b) in accordance with the requirements of sub- regulation (2).
- (2) A person shall not operate an aircraft over a congested area unless that person:
 - (a) has obtained prior written approval from the Authority and other relevant authorities having jurisdiction over that area.
 - (b) has issued notice of the intended operation to the public as specified by the Authority.
 - (c) A plan for each complete operation shall be submitted to, and approved by, the Authority which plan shall include
 - (a) consideration of obstructions to flight;
 - (b) the emergency landing capabilities of the aircraft to be used; and
 - (c) any necessary coordination with air traffic control.
- (3) No person operating single engine aircraft-
 - (a) except for helicopters, may take off a loaded aircraft or make a turnaround over a congested area;
 - (b) shall operate the aircraft over a congested area below the altitudes prescribed in the Civil Aviation (Rules of the Air and air Traffic Control) Regulations except during the actual approaches and departures necessary for that operation; or
 - (c) operate the aircraft over a congested area during the actual dispensing operation, including the approaches and departures for that operation, unless the aircraft is operated in a pattern and at such an altitude that the aircraft can land, in an emergency, without endangering persons or property on the surface.
- (4) A person operating a multiengine aircraft shall not:
 - (a) take-off a multiengine aircraft over a congested area except under conditions that will allow the aircraft to be brought to a safe stop within the effective length of the runway from any point on takeoff up to the time of attaining, with all engines operating at normal takeoff power, 105 percent of the minimum control speed with the critical engine inoperative in the takeoff configuration or 115 percent of the

power-off stall speed in the take-off configuration, whichever is greater, as shown by the accelerate stop distance data, provided that, the takeoff data is based upon still-air conditions, and no correction is made for any uphill gradient of one percent or less when the percentage is measured as the difference between elevation at the end points of the runway divided by the total length and for uphill gradients greater than one percent, the effective takeoff length of the runway is reduced 20 percent for each one-percent grade;

- (b) operate the multiengine aircraft at a weight greater than the weight that, with the critical engine inoperative, would permit a rate of climb of at least 50 feet per minute at an altitude of at least 1000 feet above the elevation of the highest ground or obstruction with the area to be worked on or at an altitude of 5,000 feet, whichever is higher, provided that the propeller of the inoperative engine is in the minimum drag position, that the wing flaps and landing gear are in the most favorable positions and that the remaining engine or engines are operating at the maximum continuous power available; or
 - (c) operate the multiengine aircraft over a congested area below the altitudes prescribed in the current Civil Aviation (Rules of the Air and Air Traffic Control) Regulations, except during the actual dispensing operation, including the approaches, departures and turnarounds necessary for that operation.
- (5) Each certificate holder shall issue notice of the intended operation to the public as specified by the Authority.

23. Operation Over Congested Areas: Pilots and Aircraft

- (1) A person shall not operate an aircraft over a congested area unless the pilot in command (PIC) of the aircraft has at least:
 - (a) 25 hours of PIC flight time in the make and basic model of the aircraft, at least 10 hours of which shall have been acquired within the preceding 12 calendar months; and
 - (b) 100 hours of flight experience as PIC in dispensing agricultural materials or chemicals.
- (2) A person shall not operate an aircraft over a congested area unless the aircraft, where it is:
 - (a) an aircraft not specified in this paragraph, has had within the preceding 100 hours of time in service a 100-hour or annual inspection by a person authorized by the Authority under the current Civil Aviation (Airworthiness of Aircraft) Regulations or has been inspected under a progressive inspection system;
 - (b) a large or turbine-powered multiengine aircraft of South Sudan registry, has been inspected in accordance with the applicable

inspection programme requirements of current Civil Aviation (Airworthiness of Aircraft) Regulations

- (c) not a helicopter, the aircraft shall be equipped with a device capable of jettisoning at least one-half of the aircraft's maximum authorized load of agricultural material within 45 seconds; and
- (d) equipped with a device for releasing the tank or hopper as a unit, there must be means to prevent inadvertent release by the pilot or other crew member.

24. Business Name: Commercial Agricultural Aircraft Operator

A person shall not operate under a business name that is not shown on that person's agricultural air operator certificate.

25. Access for Inspection

A holder of an agricultural air operator certificate (AAOC) shall allow the Authority at any time and place to make inspections, including on the job inspections, to determine compliance with applicable regulations and the AAOC requirements.

26. Records and Reports: Commercial Agricultural Aircraft Operator

- (1) A holder of a commercial agricultural air operator certificate shall maintain and keep current, at the home base designated in its application, the following records:
 - (a) the name and address of each person for whom agricultural air operator services were provided;
 - (b) the date of the service;
 - (c) the name and quantity of the material dispensed for each operation conducted; and
 - (d) the name, address, and certificate number of each pilot used in agricultural aircraft operations and the date that pilot met the knowledge and skill requirements of this regulation.
- (2) The records shall be kept for at least 12 months and shall be made available for inspection by the Authority upon request.

27. Change of Address

Each holder of an agricultural aircraft operator certificate shall notify the Authority in writing in advance of any change in the address of its main base of operations.

28. Termination of Operations

Where a certificate holder ceases operations under this part, it shall surrender that certificate to the designated office of the Authority.

CHAPTER IV
ROTORCRAFT EXTERNAL LOAD OPERATIONS

29. Application of Certification Rules

- (1) This Regulation specifies: Airworthiness requirements for rotorcraft used in external-load operations; and operating and certification rules governing the conduct of rotorcraft external-load operations in South Sudan
- (2) This certification requirement does not apply to:
 - (a) a rotorcraft manufacturer when developing external-load attaching means;
 - (b) a rotorcraft manufacturer demonstrating compliance of equipment utilized under this Part;
 - (c) operations conducted by a person demonstrating compliance for the issuance of a certificate or authorization under this Part;
 - (d) training flights conducted in preparation for the demonstration of compliance with this Part; or
 - (e) a local or national government conducting operations with state aircraft.
- (3) For the purpose of this regulation, a person other than a crew member or a person who is essential and directly connected with the external-load operation may be carried only in approved Class D rotorcraft-load combinations.
- (4) A person shall not conduct rotorcraft external-load operations within South Sudan without or in violation of the terms of a rotorcraft external-load operator certificate issued by the Authority.
- (5) A person holding a rotorcraft external-load operator certificate shall not conduct rotorcraft external-load operation under a business name that is not shown on that certificate.

30. Validity and Renewal of a Rotorcraft External Load Operator Certificate

- (1) A rotorcraft external-load operator certificate shall be valid for a period of 12 months from the date of issue or renewal unless it is otherwise surrendered, suspended or revoked.
- (2) The holder of a rotorcraft external-load operator certificate that is suspended or revoked shall return it to the Authority within 14 days of the suspension or revocation.
- (3) An application for renewal of a rotorcraft external-load operator certificate shall be made on a form prescribed by the Authority not later than 60 days before the certificate expires
- (4) An applicant for a rotorcraft external-load operator certificate which has expired shall make an initial application.

32. Application for Certificate Issue or Renewal

An application for issue or renewal of a certificate under these Regulations shall be made on a form prescribed by the Authority.

33. Issue of a Rotorcraft External Load Operator Certificate

The Authority shall issue a rotorcraft external-load operator certificate to an applicant who complies with the requirements of this Part, with an authorization for the applicant to operate specified rotorcraft with those classes of rotorcraft load combinations for which the applicant qualifies.

34. Rotor Craft

- (1) An applicant for a rotorcraft external-load operator certificate shall have the exclusive use of at least one rotorcraft that:
 - (a) is type certificated and meets the requirements of these Regulations;
 - (b) complies with the certification provisions that apply to external load combinations for which authorisation is requested; and
 - (c) has a valid certificate of airworthiness.
- (2) For the purposes of sub-regulation (1), a person has exclusive use of a rotorcraft if that person has the sole possession, control and use of it for flight, as owner or has a written agreement, including arrangements for the performance of required maintenance, giving him or her that possession, control and use.

35. Personnel

- (1) An applicant for a rotorcraft external-load operator certificate shall hold, or have available the services of at least one person who holds a current commercial pilot licence or airline transport pilot licence, with a rating appropriate for the rotorcraft to be used, issued by the Authority.
- (2) An applicant shall designate one pilot, who may be the applicant, as chief pilot for rotorcraft external-load operations.
- (3) An applicant shall designate a qualified pilot as chief pilot to perform the functions of the chief pilot.
- (4) The chief pilot shall be acceptable to the Authority and shall hold a current commercial pilot's licence or airline transport pilots' licence, with a rating appropriate for the rotorcraft to be used.
- (5) The holder of a rotorcraft external-load operator certificate shall report any change in designation of chief pilot immediately to the Authority.
- (6) A designated chief pilot shall comply with the knowledge and skill requirements of this Part within 30 days or the operator shall not conduct further operations under the rotorcraft external-load operator certificate, unless otherwise authorized by the Authority.

36. Knowledge and Skill

- (1) Except as provided in sub-regulation (4), the applicant for a certificate or the chief pilot designated in accordance with regulation 31(2) shall demonstrate to the Authority satisfactory knowledge and skill regarding rotorcraft external-load operations as set out in sub-regulation (2) and (3).
- (2) The applicant or a chief pilot referred to in sub regulation (1) shall take a test of knowledge covering the following subjects:
 - (a) steps to be taken before starting operation, including a survey of the flight area;
 - (b) proper method of loading, rigging or attaching the external load;
 - (c) performance capabilities, under approved operating procedures and limitations of the rotorcraft to be used;
 - (d) proper instructions of flight crew and ground workers;
 - (e) appropriate rotorcraft-load combination flight manual.
- (3) A skill test which requires appropriate manoeuvres for each class requested and the following appropriate manoeuvres for each load class shall be demonstrated in the rotorcraft referred to in regulation 33:
 - (a) take-offs and landings;
 - (b) demonstration of directional control while hovering;
 - (c) acceleration from a hover;
 - (d) flight at operational airspeeds;
 - (e) approaches to landing or working area;
 - (f) manoeuvring the external load into the release position; and
 - (g) demonstration of winch operation if it is installed to hoist the external load.
- (4) Compliance with sub-regulations (2) and (3) need not be shown if the Authority finds, on the basis of the applicant's or his or her designated chief pilot's previous experience and safety record in rotorcraft external load operations, that his or her knowledge and skill are adequate.

37. Amendment of Certificate

- (1) A holder of a rotorcraft external-load certificate may apply to the Authority for an amendment of the certificate, to add or delete a rotorcraft-load combination authorization.
- (2) The holder of a rotorcraft external-load certificate may apply for an amendment to add or delete a rotorcraft authorization by submitting to the Authority a new list of rotorcrafts by national and registration marks, with the classes of rotorcraft-load combinations for which authorization is requested.

38. Availability, Display and Surrender of Certificate

- (1) A holder of a rotorcraft external-load operator certificate shall display and keep that certificate and a list of authorized rotorcrafts at the home base of operations and shall make it available for inspection by the Authority upon request.
- (2) A person conducting a rotorcraft external-load operation shall carry a copy of the rotorcraft external-load operator certificate certified by the Authority in each rotorcraft used in the operation.
- (3) Where the Authority suspends or revokes a rotorcraft external-load operator certificate, the holder of that certificate shall return it to the Authority within 14 days of the suspension or revocation days.
- (4) Where the certificate holder, for any other reason, discontinues operations under the certificate and does not resume operations within 6 months, the certificate holder shall return the certificate to the Authority.

**CHAPTER V
OPERATING RULES AND RELATED REQUIREMENTS**

39. Emergency Operations

- (1) In an emergency involving the safety of persons or property, the certificate holder may deviate from the provisions of these Regulations to the extent required to meet that emergency.
- (2) A person who, in an emergency deviates from the requirements of these Regulations, shall notify the Authority within 10 days after the deviation.
- (3) Upon the request of the Authority, the person who deviated from the requirement of these Regulations shall provide the Authority with a complete report of the aircraft operation involved including a description of the deviation and reasons for it.

40. Operating Rules

- (1) A person shall not conduct a rotorcraft external-load operation without, or contrary to, the rotorcraft external-load combination operating manual prescribed in regulation 46.
- (2) A person shall not conduct a rotorcraft external load operation unless:
 - (a) the rotorcraft complies with the provisions of regulation 33; and
 - (b) the rotorcraft load combination is authorized under the rotorcraft external-load operator certificate.
- (3) Before a person operates a rotorcraft with an external-load configuration that differs substantially from any that person has previously carried with that type

of rotorcraft, whether or not the rotorcraft-load combination is of the same class, that person shall conduct, in a manner that shall not endanger persons or property on the surface, such of the following flight operational checks as the Authority determines are appropriate to the rotorcraft-load combination.

- (a) a determination that the weight of the rotorcraft load combination and the location of its centre of gravity are within approved limits, that the external load is securely fastened, and that the external load does not interfere with devices provided for its emergency release;
 - (b) make an initial lift-off and verify that controllability is satisfactory;
 - (c) while hovering, verify that directional control is adequate;
 - (d) accelerate into forward flight to verify that no attitude, whether of the rotorcraft or of the external load, is encountered in which the rotorcraft is uncontrollable or which is otherwise hazardous;
 - (e) in forward flight, check for hazardous oscillations of the external load, but if the external load is not visible to the pilot, other crew members or ground personnel shall make this check and signal the pilot; and
 - (f) increase the forward airspeed and determine an operational airspeed at which no hazardous oscillation or hazardous aerodynamic turbulence is encountered.
- (4) Notwithstanding the provisions of the applicable Civil Aviation (Operation of Aircraft) Regulations, the holder of a rotorcraft external-load operator certificate may conduct rotorcraft external-load operations over congested areas if those operations are conducted without hazard to persons or property on the surface and comply with the following:
- (a) the operator shall develop a plan for each complete operation and obtain approval for the operation from the Authority;
 - (b) the plan shall include an agreement with the relevant authority in whose jurisdiction the operation shall be conducted, coordination with air traffic control, if necessary and a detailed chart depicting the flight routes and altitudes;
 - (c) a flight shall be conducted at an altitude and on a route that shall allow a jettisonable external load to be released and the rotorcraft landed, in an emergency without hazard to persons or property on the surface.
- (5) Notwithstanding the provisions of the applicable Civil Aviation (Operation of Aircraft) Regulations and except as provided in regulation 42(1), a holder of a rotorcraft external-load operator certificate may conduct external load operations, including approaches, departures and load positioning manoeuvres necessary for the operation, below 500 feet above the surface and closer than 500 feet to persons, vessels, vehicles and structures, where the operations are conducted without creating a hazard to persons or property on the surface.
- (6) A person shall not conduct rotorcraft external load operations under instrument flight rules (IFR) unless specifically approved by the Authority.

- (7) Subject to sub-regulation (6), no person shall be carried as part of the external-load under (IFR) operations.

41. Carriage of Persons

- (1) A holder of a rotorcraft external-load certificate shall neither carry nor allow a person to be carried during rotorcraft external load operations unless that person:
 - (a) is a flight crew member;
 - (b) is a flight crew member trainee;
 - (c) performs an essential function in connection with the external load operation; or
 - (d) is necessary to accomplish the work activity directly associated with that operation.
- (2) The pilot in command shall ensure that all persons are briefed before take-off on all procedures to be followed, including normal, abnormal and emergency procedures, and equipment to be used during the external load operation.
- (3) For the purpose of this Part, a person other than a crew member or a person who is essential and directly connected with the external-load operation shall be carried only in approved class D rotorcraft-load combinations.

42. Crew Member Training, Currency and Testing Requirements

- (1) A holder of a rotorcraft external-load certificate shall not use nor shall any person serve, as a pilot in helicopter external-load operations unless that person:
 - (a) has successfully demonstrated to the Authority the knowledge and skill with respect to the rotorcraft-load combination in accordance with Regulation 33; and
 - (b) has in their personal possession, a certificate of competency issued by the operator or an appropriate logbook entry indicating compliance with paragraph (a).
- (2) A rotorcraft external-load operator certificate holder shall not use, nor shall any person serve as, crew member or other operations personnel in class D operations unless, within the preceding twelve months, that person has successfully completed either an approved initial or a recurrent training programme.
- (3) Notwithstanding sub-regulation (2), a person who has performed a rotorcraft external-load operation of the same class and in an aircraft of the same type within the past 12 calendar months need not undergo recurrent training.

43. Access for Inspection

A person conducting an operation in accordance with the provisions of this Part shall give the Authority's aviation safety inspectors free and uninterrupted access to that

person's aircraft and allied facilities with regard to the external load operations in order to conduct any inspections or tests that the Authority considers necessary to determine compliance with these Regulations and the rotorcraft external-load operator certificate.

CHAPTER VI AIRWORTHINESS REQUIREMENTS

44. Flight Characteristics Requirements

- (1) An applicant for a certificate under this chapter shall demonstrate to the Authority, by performing the following operational flight checks that the rotorcraft-load combination has satisfactory flight characteristics, unless these operational flight checks have been demonstrated previously and the rotorcraft-load combination flight characteristics were satisfactory.
- (2) for Class A rotorcraft-load combinations, the operational flight check shall consist of at least the following manoeuvres:
 - (a) take-off and landing;
 - (b) demonstration of adequate directional control while hovering;
 - (c) acceleration from a hover; and
 - (d) horizontal flight at airspeeds up to the maximum airspeed for which authorisation is requested;
- (3) for class B and D rotorcraft-load combinations, the operational flight check shall consist of at least the following manoeuvres:
 - (a) pickup of the external load;
 - (b) demonstration of adequate directional control while hovering;
 - (c) acceleration from a hover;
 - (d) horizontal flight at airspeeds up to the maximum airspeed for which authorisation is requested;
 - (e) demonstrating appropriate lifting device operation; and
 - (f) manoeuvring of the external load into release position and its release, under probable flight operation conditions, by means of each of the quick-release controls installed on the rotorcraft.
- (4) for Class C rotorcraft-load combinations used in wire-stringing, cable-laying, or similar operations, the operational flight check shall consist of the manoeuvres, as applicable, prescribed in paragraph (3);
- (5) For the purposes of this demonstration, the external load weight, including the external-load attaching means, is the maximum weight for which authorization is requested.

45. Structures and Design

- (1) An external-load attaching means and a quick release device means of a rotorcraft shall be approved by the Authority.
- (2) The total mass of the rotorcraft-load combination shall not exceed the total mass approved for the rotorcraft during its type certification.
- (3) The location of the Centre of gravity must, for all loading conditions, be within the range established for the rotorcraft during its type certification.
- (4) For Class C rotorcraft-load combinations, the magnitude and direction of the loading force shall be established at those values for which the effective location of the Centre of gravity remains within its established range.

46. Operating Limitations

In addition to the operating limitations set out in the approved rotorcraft load combination operating manual and to any other limitations that the Authority may prescribe, the operator shall establish at least the following limitations and specify them in the rotorcraft-load combination operating manual in which case the limitations for rotorcraft-load combination operations shall:

- (a) be operated only within the weight and center of gravity limitations established in accordance with this Part;
- (b) not be operated with an external load weight exceeding that used in showing compliance with this Part; and
- (c) Not be operated at airspeeds greater than those established in accordance with these Regulations.
- (d) A person shall not conduct an external-load operation under these Regulations with a rotorcraft type certified in the restricted category over a densely populated area, in a congested airway or near a busy airport where commercial air transport operations are conducted.
- (e) The rotorcraft-load combination of class D may be conducted only in accordance with the following conditions:
 - (i) the rotorcraft to be used shall have been type certificated under transport category and provide hover capability with one engine inoperative at that operating weight and altitude;
 - (ii) the rotorcraft shall be equipped to allow direct radio intercommunication among required crew members;
 - (iii) the personnel lifting device shall be approved by the Authority; and the lifting device shall have an emergency release requiring two distinct actions.

47. Rotorcraft Load Combination Operating Manual

- (1) An applicant for a rotorcraft external-load operator certificate shall prepare a rotorcraft-load combination operating manual and submit it to the Authority for approval.

- (2) The manual referred to in sub-regulation (1) shall specify;
 - (a) operating limitations, normal and emergency procedures, performance, and other information established under this Part;
 - (b) the class of rotorcraft-load combinations for which the airworthiness of the rotorcraft has been demonstrated in accordance with this Part; and
 - (c) in the information section of the rotorcraft-load combination operating manual:
 - (i) information on any peculiarities discovered when operating particular rotorcraft-load combinations;
 - (ii) precautionary advice regarding static electricity discharges for class B, class C and class D rotorcraft-load combinations; and
 - (iii) any other information essential for safe operation with external loads.
- (3) The limiting height speed envelope data need not be listed in the rotorcraft-load combination flight manual.

48. Markings and Placards

- (1) The markings and placards shall be displayed conspicuously on a rotorcraft and shall be such that they cannot be easily erased, disfigured or obscured.
- (2) The placard displayed in the cockpit or cabin shall state the class of rotorcraft-load combination and the occupancy limitation for which the rotorcraft has been approved.
- (3) The placard, marking or instruction displayed next to the external-load attaching means shall state the maximum external load approved.

CHAPTER VII

GLIDER TOWING, PICKING UP AND RAISING OF PERSONS AND ARTICLES

49. Towing of Gliders

- (1) This part applies to those operations involving towing gliders by aircraft where:
 - (a) the Authority shall require each person conducting operations in accordance with this part to hold a certificate of waiver or equivalent authorization; and
 - (b) the Authority shall issue a certificate of waiver or equivalent authorization to an applicant that meets the requirements of this part for that certificate or authorization
- (2) A person operating an aircraft in flight shall not tow a glider unless the certificate of airworthiness is valid and includes an express provision that the aircraft shall be used for towing a glider of that particular type.

- (3) A person operating an aircraft shall not tow a glider unless the pilot in command (PIC) of the towing aircraft is qualified under this Part.
- (4) A person shall not operate an aircraft that is towing a glider unless the aircraft is equipped with a tow hook and release control system that meets the applicable standards of airworthiness.
- (5) The length of the combination of towing aircraft, towrope and glider in flight shall not exceed 80 meters.
- (6) The pilot in command (PIC) of an aircraft which is about to tow a glider shall satisfy himself or herself, before the towing aircraft takes off that:
 - (a) the towline is in good condition and meets the requirements specified in this regulation;
 - (b) the combination of the towing aircraft and glider is capable of safely taking off, reaching and maintaining a safe height thereafter and making a safe landing at the place of intended destination;
 - (c) signals have been agreed and communication established with persons suitably stationed so as to enable the glider to take off safely; and
 - (d) emergency signals have been agreed between the PIC of the towing aircraft and the PIC of the glider to be used, respectively, by the PIC of the towing aircraft to indicate that the tow should immediately be released by the glider and by the PIC of the glider to indicate that the tow cannot be released.
- (7) The glider shall be attached to the towing aircraft by means of the tow rope before the aircraft takes off.
- (8) A person operating an aircraft in flight shall not tow a glider except in accordance with such conditions and requirements as the Authority may have notified.
- (9) The PIC shall satisfy himself or herself that:
 - (a) the towing aircraft is equipped with a tow hitch of a kind and installed in a manner that is approved by the Authority;
 - (b) the towline used has breaking strength not less than 80 percent of the maximum certificated operating weight of the glider and not more than twice this operating weight, the towline used shall have a breaking strength more than twice the maximum certificated operating weight of the glider where:
 - (i) a safety link is installed at the point of attachment of the towline to the glider with a breaking strength not less than 80 percent of the maximum certificated operating weight of the glider and not greater than twice this operating weight;
 - (ii) a safety link is installed at the point of attachment of the towline to the towing aircraft with a breaking strength greater, but not more than 25 percent greater than that of the safety link

- at the towed glider end of the towline and not greater than twice the maximum certificated operating weight of the glider;
 - (c) before conducting any towing operation within the lateral boundaries of the surface areas of Class B, C, D or E airspace designated for an airport or before making each towing flight within such controlled airspace if required by air traffic control, the PIC notifies the control tower;
 - (d) if a control tower does not exist, the PIC shall notify the Authority before conducting any towing operations; and
 - (e) the pilots of the towing aircraft and the glider have agreed upon a general course of action, including takeoff and release signals, airspeeds and emergency procedures for each pilot.
- (10) A pilot of an aircraft shall not intentionally release a towline, after release of a glider, in a manner that endangers the life or property of other persons.

50. Glider Towing Experience and Training Requirements

- (1) A person shall not act as pilot in command (PIC) for towing a glider unless that person:
- (a) holds at least a private pilot licence (PPL) with a category rating for powered aircraft and has logged at least 100 hours of PIC time in the same aircraft category, class and type the pilot is using to tow a glider;
 - (b) has a logbook endorsement from an authorized instructor who certifies that the person received ground and flight training in towing gliders and is proficient in:
 - (i) the techniques and procedures essential to the safe towing of gliders, including airspeed limitations;
 - (ii) emergency procedures;
 - (iii) signals used; and
 - (iv) maximum angles of bank;
 - (c) has logged at least 3 flights as the sole manipulator of the controls of an aircraft towing a glider or simulating glider-towing flight procedures while accompanied by a pilot who meets the requirements of this regulation;
 - (d) has received a logbook endorsement from the pilot, described in paragraph
 - (c) certifying that the person has accomplished at least three flights in an aircraft while towing a glider or while simulating glider-towing flight procedures; and
 - (e) within the preceding 12 months has:
 - (i) made at least three actual or simulated glider tows while accompanied by a qualified pilot who meets the requirements of this Part; or
 - (ii) made at least 3 flights as PIC of a glider towed by an aircraft.

- (2) The pilot, described in sub-regulation (1)(d), who endorses the logbook of a person seeking glider-towing privileges shall have:
 - (a) met the requirements of this regulation prior to endorsing the logbook of the person seeking glider-towing privileges; and
 - (b) logged at least 10 flights as PIC of an aircraft while towing a glider.
- (3) If the pilot referred in sub-regulation (1)(d) holds only a PPL, then that pilot shall have:
 - (a) logged at least 100 hours of PIC time in aeroplanes or 200 hours of PIC time in a combination of powered and other than powered aircraft; and
 - (b) performed and logged at least three flights within the twelve calendar months preceding the month that pilot accompanies or endorses the logbook of a person seeking glider-towing privileges:
 - (i) in an aircraft while towing a glider accompanied by another pilot who meets the requirements of this section; or
 - (ii) as PIC of a glider being towed by an aircraft.

51. Towing Picking Up and Raising of Persons, Animals and Articles

- (1) A person operating an aircraft in flight shall not, by means external to the aircraft, tow any article other than a glider or banner, tow or pick up or raise any person, animal or article, unless the certificate of airworthiness is valid and includes an express provision that it shall be used for that purpose.
- (2) A person shall not use an aircraft to launch or pick up towlines, banners of similar articles other than at an aerodrome.
- (3) A person shall not operate an aircraft in flight to tow any article, other than a glider, at night or when flight visibility is less than one mile.
- (4) The length of the combination of towing aircraft, towline and article in a tow shall not exceed 80 meters.
- (5) A person flying a helicopter shall not fly at any height over a congested area of a city, town or settlement at any time when an article, person or animal is suspended from the helicopter.
- (6) Nothing in this regulation shall:
 - (a) prohibit the towing in a reasonable manner by an aircraft in flight of any radio aerial or any instrument which is being used for experimental purposes;
 - (b) prohibit the picking up or raising of any person, animal or article in an emergency or for the purpose of saving life;
 - (c) apply to any aircraft while it is flying in accordance with the provisions of the special flight permit issued under the Civil Aviation (Airworthiness) Regulations;

- (d) be taken to permit the towing or picking up of a glider otherwise than in accordance with this Part.

52. Towing Operating Rules

No pilot shall:

- (a) conduct any towing operation in controlled airspace until he or she has received the appropriate clearance from the ATC service.
- (b) conduct any towing operation in uncontrolled airspace until he or she has notified the appropriate Authority for such activity to be entered into the NOTAM service of South Sudan.
- (c) engage in towing operations, either as the pilot of the towing aircraft or as the pilot of the towed glider, until all pilots have agreed upon a general course of action, including take-off and release signals, airspeeds, and emergency procedures for each pilot.
- (d) intentionally release a towline, after release of a glider, in a manner that endangers the life or property of another.

53. Dropping of Articles and Animals

- (1) A person shall not drop or permit to drop an article or animal, whether or not attached to a parachute, from an aircraft in flight so as to endanger persons or property.
- (2) Sub-regulation (1) shall not apply to the dropping of an article by or with the authority of the pilot in command of the aircraft in any of the following circumstances, provided that the pilot seeks to avoid endangering persons or property:
 - (a) the dropping for the purpose of saving life;
 - (b) the jettisoning, in case of emergency, of fuel or other articles in the aircraft;
 - (c) the dropping of ballast in the form of fine sand or water;
 - (d) the dropping of articles solely for the purpose of navigating the aircraft in accordance with ordinary practice or with the provisions of these Regulations;
 - (e) the dropping at an aerodrome, in accordance with prescribed regulations of towropes, banners or similar article towed by aircraft;
 - (f) the dropping of articles for the purpose of agriculture, horticulture, forestry or public health or as a measure against weather conditions, surface icing or oil pollution or for training for the dropping of articles for any such purposes, if the articles are dropped with the permission of the Authority and in accordance with any condition subject to which that permission may have been given; and
 - (g) the dropping of wind drift indicators for the purpose of enabling parachute descents to be made if the wind indicators are dropped with

the permission of the Authority and in accordance with any conditions subject to which that permission may have been given.

- (3) For the purposes of this regulation “dropping” include projecting and lowering.
- (4) Nothing in this regulation shall prohibit the lowering of any animal or article from a helicopter to the surface, if the certificate of airworthiness is valid and includes an express provision that it may be used for that purpose.

54. Dropping of Persons

- (1) A person shall not drop, be dropped or permitted to drop to the surface or jump from an aircraft flying over South Sudan except under and in accordance with the terms of a written authorization granted by the Authority under the current Civil Aviation (Personnel Licensing) Regulations.
- (2) The terms of the written authorization shall specify its duration
- (3) Notwithstanding the grant of an authorization under sub-regulation (1), a person shall not drop, be dropped or be permitted to drop from an aircraft in flight so as to endanger persons or property.
- (4) A person shall not use an aircraft for the purpose of dropping persons unless the aircraft has a certificate of airworthiness and an authorization granted for that purpose.
- (5) Notwithstanding the provisions of dropping persons these regulations shall:
 - (a) apply to the descent of persons by parachute from an aircraft in an emergency;
 - (b) prohibit the lowering of any person in an emergency or for the purpose of saving life; or
 - (c) prohibit the lowering of any person from a helicopter to the surface if the certificate of airworthiness is valid and includes an express provision that it may be used for that purpose.

CHAPTER VIII BANNER TOWING

55. Authorization Required

This part applies to those operations involving towing aircraft banners or other signs, lit or unlit where:

- (a) The Authority shall require a person conducting operations in accordance with this part to hold a certificate of waiver or equivalent authorization.
- (b) The Authority shall issue a certificate of waiver or equivalent authorization to an applicant that meets the requirements of this regulation for that certificate

or authorization.

- (c) helicopter operating under the requirements of part 3 may tow a banner using an external-load attaching means without a certificate of waiver or equivalent authorization only where the operator has at least a Class B authorization on the operating certificate.

56. Aircraft Requirements

- (1) A person shall not operate an aircraft that is towing a banner unless the aircraft is equipped with a tow hook and release control system that meet the applicable standards of airworthiness.
- (2) A person shall not operate a helicopter that is towing a banner unless the helicopter has a means to prevent the banner from becoming entangled in the helicopter's tail rotor during all phases of flight, including auto rotations.

57. Experience and Training Requirements

- (1) For non-revenue flights, the pilot of the tow aircraft shall hold at least a valid private pilot's licence and have a minimum of 200 hours of pilot in command time.
- (2) When banner tow operations are conducted for compensation or hire, the pilot shall have at least a valid commercial pilot's licence.
- (3) A pilot engaged in banner towing operations shall demonstrate competence to the Authority by performing at least one pickup and drop of the maximum number of letters (panels) to be used by the certificate holder.
- (4) The demonstration referred to in sub-regulation (3) shall be observed from the ground to allow the inspector to evaluate the competence of any essential ground personnel as well as the flight operation.

58. Operating Rules

- (1) A banner tow operation shall be conducted only:
 - (a) in visual flight rules weather conditions; and
 - (b) between the hours of official sunrise and sunset.
- (2) A person shall not conduct banner towing operations:
 - (a) over congested areas or open-air assemblies of persons at whichever of the following heights is higher:
 - (i) at a height below 1,000 feet above the highest fixed object within 600 meters of the aircraft;
 - (ii) below such a height as would enable the aircraft to alight clear of the area and without danger to persons or property on the surface, in the event of failure of a power unit;
 - (b) elsewhere not below such height as would enable the aircraft to alight clear of the assembly in the event of the failure of a power unit.

- (3) Helicopters may be operated at less than the minimums specified in sub-regulation (2) where the operation is conducted without hazard to persons or property on the surface.
- (4) A holder of an authorization carrying out banner tow operation shall be required to obtain a written approval of the airport management to conduct such operations.
- (5) where banner towing operations take place at an airport with air traffic control (ATC), the authorization holder shall inform the ATC of the time of the operations and obtain clearance.
- (6) The holder of an authorization shall notify the appropriate airport officials in advance when banner tow operations shall be in close proximity to an unmanned airport.
- (7) Only essential crew members shall be carried when conducting banner tow operations.
- (8) When banner tow operations are conducted around congested areas, the pilot shall exercise due care so that, in the event of emergency release of the banner or towrope, it shall not cause undue hazard to persons or property on the surface.
- (9) A pilot conducting banner operation shall drop the towrope in a pre-designated area at least 500 feet from persons, buildings, parked automobiles, and aircraft.
- (10) when a tow aeroplane lands with the rope attached, due care shall be exercised to avoid trailing the rope and endangering other aircraft in the air, or persons, property or aircraft on the surface.
- (11) A pilot conducting banner-towing operations shall carry on board the aircraft a current copy of the authorization, allowing banner towing operations.
- (12) A pilot conducting banner towing operations shall ensure coordination of banner times with other aviation operations at all times;
- (13) The coordination shall include:
 - (a) communications:
 - (i) air to air;
 - (ii) air to ground; and
 - (iii) coordination with Air Traffic Control (ATC).
 - (b) traffic flow; identification and depiction of traffic patterns for the pilots concerned; and
 - (c) airworthiness inspections.
- (14) An aircraft conducting banner towing operations shall prior to the event undergo an airworthiness safety inspection.

CHAPTER IX
TELEVISION, MOVIE OPERATIONS, AERIAL PHOTOGRAPHY AND AERIAL SURVEY

59. Authorization Required

- (1) A person shall not conduct operations involving movie filming, appearance in flight in movies, airborne direction or production of such filming, aerial photography or aerial survey when those operations are conducted as part of a business enterprise or for compensation or hire unless that person satisfies the requirements of these Regulations.
- (2) A person who wishes to carry out operations referred to under sub-regulation (1) shall be required to apply to the Authority for authorization at least 30 days before the date of the intended operation.
- (3) For purposes of this regulation, “movie” includes film, videos, and live broadcast in any format, and the preparation and rehearsal for those operations.

60. Aircraft Requirements

A person shall not use an aircraft in motion picture, television filming, aerial photography or aerial survey operations, unless there is in respect of the aircraft a certificate of airworthiness or a restricted certificate of airworthiness issued for the purpose of exhibition.

61. Experience and Training Requirements

- (1) A pilot shall not conduct television movie, aerial photography or aerial survey operations unless the pilot has:
 - (a) a commercial pilot licence with type ratings for the aircraft to be used;
 - (b) at least 500 hours as pilot-in-command;
 - (c) a minimum of 100 hours in the category and class of the aircraft to be used; and
 - (d) a minimum of 5 hours in the make and model of the aircraft to be used.
- (2) If a pilot for television, movie, aerial photography or aerial survey operations intends to perform acrobatic flights below 1,500 feet above ground level, the pilot shall furnish the Authority with proof of competence to perform the acrobatic manoeuvres in the aircraft to be used

62. Special Authorization Requirements

- (1) An operator shall obtain a certificate of waiver or equivalent authorization from the Authority where filming sequences require an aircraft to be flown:
 - (a) In acrobatic flight below 1 500 ft AGL;
 - (b) Over a congested area;
 - (c) In controlled airspace.

- (2) The holder of the special authorization issued under this regulation shall provide a schedule of events that lists the:
 - (a) identification of the aircraft; and
 - (b) performers in the sequence of their appearance.
- (3) Any manoeuvres added or time changes to the schedule of events shall be approved by the Authority.
- (4) The special authorization holder shall develop and adhere to a motion picture, television, aerial photography or aerial survey flight operations Manual which shall be approved by the Authority.

63. Contents of a Flight Operations Manual

A motion picture, television or aerial photography and survey flight operations manual shall contain at least the following:

- (a) business name, address and telephone number of applicants;
- (b) list of pilots to be used during the filming, aerial photography and survey including their pilot licence numbers, type of licence and date of medical certificate;
- (c) list of aircraft by make and model;
- (d) procedures for revising the manual to ensure that all manuals are kept current and procedures for the distribution of the manual to the concerned personnel;
- (e) procedures to ensure that no persons, except those persons consenting to be involved and necessary for the filming or aerial photography and survey are allowed within 500 feet of the filming production area;
- (f) the area that will be used during the term of the authorization;
- (g) procedures for the submission, within 3 days of scheduled filming or aerial photography and survey, a written plan of activities to the Authority containing at least the following:
 - (i) dates and times for all flights;
 - (ii) name and phone number of person responsible for the filming or aerial photography and survey;
 - (iii) make and model of aircraft to be used and type of airworthiness certificate;
 - (iv) name of pilots involved in the filming or aerial photography and survey;
 - (v) a statement that permission has been obtained from property owners or local officials to conduct the filming or aerial photography and survey;
 - (vi) a general outline, or summary, of the production schedule, to include maps or diagrams of the specific filming or aerial photography and survey location;
- (h) requirements and procedures that the special authorization applicant will use to obtain permission from property owners or local officials like police and

fire departments as appropriate for the conduct of all filming or aerial photography and survey;

- (i) method of security that will be used to exclude all persons not directly involved with the operation from the location;
- (j) procedures to brief personnel of the risks involved, emergency procedures, and safeguards to be followed during the filming or aerial photography and survey;
- (k) procedures to ensure that required inspections will be conducted;
- (l) procedures to provide communications capability with all participants during the actual operation and filming or aerial photography and survey; and
- (m) procedures for notification and reporting of incidents and accidents.

64. Operating Rules

- (1) An operator shall not conduct motion picture, television flight or aerial photography operations so as to endanger persons or property on the surface or aircraft in flight.
- (2) Minimum cloud clearance requirements and minimum altitude requirements of the current Civil Aviation (Rules of the Air) and (Air Traffic Control) Regulations do not apply to operations where different requirements and minimums are specifically authorized by the Authority under these Regulations.

65. Exhibition Flights

- (1) A person shall not conduct an exhibition of flying unless that person has obtained authorization from the Authority.
- (2) A pilot shall not participate in an exhibition of flying unless that pilot:
 - (a) holds a valid private pilot licence, commercial pilot licence or airline transport pilot licence;
 - (b) is rated on the type of aircraft to be used; and
 - (c) complies with any relevant conditions specified in the authorization.
- (3) A person shall not use an aircraft in exhibition of flying, unless that aircraft has a valid certificate of airworthiness.
- (4) A person shall not be issued with the authorization referred to in sub regulation (1) unless that person proves to the Authority the ability to safely conduct the exhibition of flying.
- (5) The authorization referred to in sub regulation (1) may be issued subject to such conditions, as the Authority thinks fit and shall, remain in force for the period specified in the authorization.
- (6) A person authorized under this regulation shall not conduct exhibition of flying so as to endanger persons or property on the surface or aircraft in flight.

CHAPTER X
TRAFFIC AND SPORTS REPORTING, FISH SPOTTING, GAME VIEWING AND
SIGHTSEEING

66. Sightseeing

This part applies to those operations involving the carriage of persons for viewing natural formations, manmade objects, or wildlife on the ground when:

- (a) those operations are conducted as part of a business enterprise or for compensation or hire;
- (b) the flight is unquestionably advertised as “sightseeing”;
- (c) the flight returns to the aerodrome of departure without having landed at any other aerodrome;
- (d) the flight is conducted within a 25-statute-mile radius of the departure aerodrome; and
- (e) the certificated passenger capacity of the aircraft does not exceed nine passengers.

67. Traffic Reporting

- (1) A person shall not conduct any aircraft operations involving the observation of, and reporting on, vehicular traffic conditions on the highways and streets unless that person:
 - (a) holds at least a valid commercial pilot licence;
 - (b) uses an aircraft with a certificate of airworthiness; and
 - (c) holds an authorization issued by the Authority.
- (2) A person authorized under this regulation shall not conduct operations so as to endanger persons or property on the surface or aircraft in flight.

68. Game Viewing or Tracking Operation

- (1) A person shall not conduct aircraft operations involving the observation of, and reporting on and participating in game viewing or tracking operations unless that person:
 - (a) holds at least a valid private pilot’s licence;
 - (b) uses aircraft with a certificate of airworthiness or restricted certificate of airworthiness;
 - (c) holds an authorization issued by the Authority.
- (2) A person authorized under this regulation shall not conduct operations so as to endanger persons, animals or property on the surface or aircraft in flight.

69. Competitive Motor Vehicle Operations

- (1) A person shall not conduct aircraft operations involving the observation of, and reporting on and participating in motor vehicle testing and competitive operations unless that person:

- (a) holds at least a valid private pilot's licence;
 - (b) uses an aircraft with a standard certificate of airworthiness; and
 - (c) holds authorization issued by the Authority.
- (2) A person authorized under this regulation shall not conduct operations so as to endanger persons or property on the surface or aircraft in flight.

70. Fish Spotting

- (1) A person shall not conduct aircraft operations involving location, tracking, and reporting on the location of fish and fish schools, as part of a business enterprise or for compensation or hire unless that person obtains authorization from the Authority.
- (2) A person authorized under this regulation shall not conduct operations so as to endanger persons or property on the surface or aircraft in flight.
- (3) The minimum cloud clearance requirements and minimum altitude requirements of the current Civil Aviation (Rules of the Air and Air Traffic Control) Regulations do not apply to operations specifically authorized by the Authority under this Regulation with different minimas.

**CHAPTER XI
MISCELLANEOUS PROVISIONS**

71. Application for Exemptions

- (1) A person or operator may apply to the Authority for an exemption from any provision of these Regulations.
- (2) A request for exemption shall be made in accordance with the requirements of these Regulations and an application for such exemption shall be submitted and processed in a manner prescribed by the Authority in the applicable technical guidance material.
- (3) A request for an exemption shall contain the applicant's:
- (a) name;
 - (b) physical address and mailing address;
 - (c) telephone number;
 - (d) fax number where available; and
 - (e) email address.
- (4) The application shall be accompanied by a fee prescribed by the Authority in the applicable aeronautical information circulars for technical evaluation.

72. Exemption

- (1) The Authority may, upon consideration of the circumstances of the application for exemption, issue an exemption providing relief from specified provisions of these Regulations, provided that:
 - (a) the Authority finds that the circumstances presented warrant the exemption; and
 - (b) a level of safety shall be maintained equal to that provided by the Regulations from which the exemption is sought.
- (2) The exemption referred to in sub-regulation (1) may be terminated or amended at any time by the Authority.
- (3) A person or operator who receives an exemption shall have a means of notifying the management and appropriate personnel performing functions subject to the exemption.
- (4) All entries in records required to be maintained by or under these Regulations shall be made in a permanent and indelible ink.
- (5) A person shall not purport to issue any approvals, authorizations or exemptions under these Regulations unless he or she is authorized by the Authority to do so.
- (6) A person shall not issue any approval, authorization or exemption of the kind referred to in sub-regulation (4) unless he or she has satisfied himself or herself that all statements in the certificate are correct, and that the applicant is qualified to hold that certificate.

73. Possession of the Licence, Certificate, Approval, Authorization or Exemption

- (1) A holder of a licence, certificate, approval, authorization, exemption or other document issued by the Authority under these Regulations shall have it in his or her physical possession or at the work site when exercising the privileges of that licence, certificate, authorization or such other document.
- (2) A flight crew of a foreign registered aircraft shall hold a valid licence, certificate or authorization and have it in his or her physical possession or at the work site when exercising the privileges of that licence, certificate or authorization.

74. Drug and Alcohol Testing and Reporting

- (1) A person who performs any function requiring a licence, rating, qualification or authorization prescribed by these Regulations directly or by contract under the provisions of these Regulations may be tested for drug or alcohol usage.
- (2) Where the Authority or any person authorized by the Authority wishes to test a person referred to in sub regulation (1) for the percentage by weight of alcohol in the blood or for the presence of narcotic drugs, marijuana or depressant or stimulant drugs or substances in the body and that person:

- (a) refuses to submit to the test; or
 - (b) having submitted to the test, refuses to authorize the release of the test results, the Authority may suspend or revoke the or certificate or authorization issued by the Authority.
- (3) In determining whether to suspend or revoke the agricultural air operator certificate (AAOC) or rotorcraft external-load operator certificate, the Authority shall consider all relevant factors, including:
- (a) whether the AAOC or rotorcraft external-load operator certificate holder had knowledge of the drug or alcohol use;
 - (b) whether the AAOC or rotorcraft external-load operator certificate holder encouraged the person to refuse the drug or alcohol test;
 - (c) whether the AAOC or rotorcraft external-load operator certificate holder dismissed the person who failed or refused the drug tests; or
 - (d) the position that person held with the AAOC holder or rotorcraft external-load operator certificate holder.
- (4) The Authority shall require the AAOC or rotorcraft external-load operator certificate holder to show cause why that person should not be dismissed from the employment of the AAOC or rotorcraft external-load operator certificate holder.
- (5) A person who is convicted, whether in or outside South Sudan, for any offence relating to the growing, processing, manufacture, sale, disposition, possession, transportation or importation of narcotic drugs, marijuana or depressant or stimulant drugs or substances, shall be dismissed from the employment of the AAOC or rotorcraft external-load operator certificate holder.
- (6) The Authority may suspend or revoke the certificate of an AAOC or rotorcraft external-load operator certificate holder who refuses to dismiss from its employment a person convicted under sub regulation (3).

75. Inspection of Licences, Certificates Approval, Authorization or Exemption

A person who holds a licence, certificate, authorization or other document required by these Regulations shall present it for inspection upon a request from the Authority or any person authorized by the Authority.

76. Change of Name

- (1) A holder of a licence, certificate, authorization or other document issued under these Regulations may apply to change the name on a licence, certificate, authorization or such other document.
- (2) The holder shall include with any such request:
 - (a) the current licence, certificate, authorization or such other document sought to be amended; and
 - (b) a court order or other legal document verifying the name change.

- (3) The Authority may change the licence, certificate, authorization or such other document and issue a replacement thereof.
- (4) The Authority shall return to the holder the original documents specified in sub-regulation 2(b) and retain copies thereof and return the replaced licence, certificate or authorization with the appropriate endorsement.
- (5) A licence, certificate, authorization or other document issued to a person under these Regulations is not transferable.

77. Change of Address

- (1) A holder of a certificate or authorization issued under these Regulations shall notify the Authority of the change in the physical and mailing address and shall do so in the case of:
 - (a) physical address, at least fourteen days in advance; and
 - (b) mailing address upon the change.
- (2) A person who does not notify the Authority of the change in the physical address within the time frame specified in sub-regulation (1) shall not exercise the privileges of the certificate or authorization.

78. Replacement of Licence, Certificate, Approval, Authorization or Exemption

A person may apply to the Authority in the prescribed form for replacement of documents issued under these Regulations if such documents are lost or destroyed.

79. Suspension and Revocation of Licence, Certificate, Approval Authorization or Exemption

- (1) The Authority may, where it considers it to be in the public interest, suspend provisionally, pending further investigation, any certificate, approval, permission, exemption, authorization or other document issued, granted or having effect under these Regulations.
- (2) The Authority may, upon the completion of an investigation which has shown sufficient ground to its satisfaction and where it considers it to be in the public interest, revoke, suspend or vary any certificate, approval, permission, exemption or other document issued or granted under these Regulations.
- (3) The Authority may, where it considers it to be in the public interest, prevent any person or aircraft from flying.
- (4) A holder or any person having the possession or custody of any certificate, approval, permission, exemption or other documents which has been revoked, suspended or varied under these Regulations shall surrender it to the Authority within 14 days from the date of revocation, suspension or variation.
- (5) The breach of any condition subject to which any certificate, approval, permission, exemption or any other document has been granted or issued

under these Regulations shall render the document invalid during the continuance of the breach.

80. Use and Retention of Licence, Certificate, Authorization and Records

- (1) A person shall not:
 - (a) use any certificate, approval, permission, exemption or other document issued or required by or under these Regulations which has been forged, altered, revoked or suspended or to which he or she is not entitled;
 - (b) forge or alter any certificate, approval, permission, exemption or other document issued or required by or under these Regulations;
 - (c) lend any certificate, approval, permission, exemption or other document issued or required by or under these Regulations to any other person; or
 - (d) make any false representation for the purpose of procuring for himself or herself or any other person the issue, renewal or variation of any such certificate, approval, permission or exemption or other document.
- (2) During the period for which a record is required under these Regulations to be preserved, a person shall not mutilate, alter, render illegible or destroy any records or any entry made therein, required by or under these Regulations to be maintained or knowingly make or procure or assist in the making of any false entry in any such record or willfully omit to make a material entry in such record.
- (3) A record required to be maintained by or under these Regulations shall be recorded in a permanent and indelible material.
- (4) A person shall not purport to issue any certificate, document or exemption under these Regulations unless he or she is authorized to do so by the Authority.
- (5) A person shall not issue any certificate of the kind referred to in sub-regulation (4) unless he or she has satisfied himself or herself that all statements in the certificate are correct and that the applicant is qualified to hold that certificate.

81. Reports of Violation

- (1) A person who knows of a violation of the Civil Aviation Authority Act or any regulation or order issued under the Act, shall report it to the Authority.
- (2) The Authority will determine the nature and type of any additional investigation or enforcement action that need be taken.

82. Enforcement of Directives

A person who fails to comply with any direction given to him or her by the Authority or by any authorized person under any provision of these Regulations shall be deemed for the purposes of these Regulations to have contravened that provision.

83. Aeronautical User Fees

- (1) The Authority may notify the fees to be charged in connection with the application, issue, validation, renewal, extension or variation of any certificate, licence or other document, including the issue of a copy thereof or the undergoing of any examination, test, inspection or investigation or the grant of any permission or approval, required by or for the purpose of these Regulations or any orders, notices or proclamations made thereunder.
- (2) Upon an application being made in connection with which any fee is chargeable, the applicant shall be required, before the application is entertained, to pay the application fee.
- (3) If, after the payment has been made, the application is withdrawn by the applicant or otherwise ceases to have effect or is refused, the Authority, shall not refund the application fee made.

84. Application of Regulations to Government and Visiting Forces,

- (1) These Regulations shall apply to aircraft, not being military aircraft, belonging to or exclusively employed in the service of the Government and for the purposes of such application, the Department or other authority for the time being responsible for management of the aircraft shall be deemed to be the operator of the aircraft and in the case of an aircraft belonging to the Government, to be the owner of the interest of the Government in the aircraft.
- (2) Except as otherwise expressly provided, the naval, military and air force authorities and member of any visiting force and property held or used for the purpose of such a force shall be exempt from the provision of these regulations to the same extent as if the visiting force formed part of the military force of South Sudan.

85. Extraterritorial Application of these Regulations

Except where the context otherwise requires, these Regulations:

- (a) in so far as they apply, whether by express reference or otherwise, to aircraft registered in South Sudan, shall apply to such aircraft wherever they may be;
- (b) in so far as they apply, whether by express reference or otherwise, to other aircraft, shall apply to such aircraft when they are within South Sudan;
- (c) in so far as they prohibit, require or regulate, whether by express reference or otherwise, the doing of anything by any person in or by any of the crew of, any aircraft registered in South Sudan, shall apply to such persons and crew, wherever they may be; and
- (d) in so far as they prohibit, require or regulate, whether by express reference or otherwise, the doing of anything in relation to any aircraft registered in South Sudan by other persons shall, where such persons are citizens of South Sudan, apply to them wherever they may be.

CHAPTER XII

OFFENCES AND PENALTIES

86. Contravention of Regulations

A person who contravenes any provision of these Regulations may have his or her licence, certificate, approval, authorization, exemption or other document revoked or suspended.

87. Penalties

- (1) Where any provision of these Regulations, orders, notices or proclamations made under these Regulations is contravened in relation to an aircraft, the operator of that aircraft and the pilot in command, if the operator or the PIC is not the person who contravened that provision shall, without prejudice to the liability of any other person under these Regulations for that contravention be deemed to have contravened that provision unless he or she proves that the contravention occurred without his or her consent or connivance and that all due diligence was exercised to prevent the contravention.
- (2) A person who contravenes any provision specified as an “A” provision in the Schedule to these Regulations commits an offence and is liable on conviction to a fine not exceeding USD 1000 for each offence or a sum equivalent to South Sudanese pounds or to imprisonment for a term not exceeding one year or to both.
- (3) A person who contravenes any provision specified as a “B” provision in the Schedule to these Regulations commits an offence and is liable on conviction to a fine not exceeding USD 2000 for each offence or a sum equivalent to South Sudanese pounds or to imprisonment for a term not exceeding three years or to both.
- (4) A person who contravenes any provision of these Regulations not being a provision referred to in the Schedule to these Regulations, commits an offence and is liable on conviction to a fine not exceeding USD 2000 and in the case of a second or subsequent conviction for the like offence, to a fine not exceeding USD 4000 or a sum equivalent to South Sudanese pounds or to imprisonment for a term not exceeding four years or to both.

88. Revocation and Savings

A valid Licence, certificate, approval, authorization, exemption or any other document issued or granted by the Authority before the commencement of these regulations shall, until its expiry, have effect as if issued under these Regulations
